## WHY HIRE A PROFESSIONAL FOR YOUR PARTY?

The biggest reasons for hiring a professional photographer at your party is so that you can enjoy it!  
You don't want to miss out on precious moments with your family so that you can take the photos!  
It's much more fun for everyone if there is someone there to ensure you won't miss a minute you look back on the party!

# Baby Plan

## ► What is it?

The Baby plan is the best way to save in time all memories and milestones of your baby's life! Since the anticipation of the maternity session, newborn, 6 months until the excitement of the first birthday, all these special moments goes in a blink of an eye and we know how much we would love to freeze it in time! Let's slow down and document the milestone so that you can enjoy and celebrate your baby's first year.

## ► What is included?

- Session fee
- Album Heirloom with your favorite images with 24 pages.
- Professional retouching of the images
- A password protected online gallery of your images

- Package plans are paid in full to receive the discounted price

- Wide range of colours

# Frequently asked questions

## ► Where the session take place ?

For small babies I recommend at the studio, (located in Walkistown – Dublin 12) with cute props, favourite toys or natural as they are, when they've mastered crawling, are sitting up independently, and are a whole barrel of fun!

For older children that love run and explore and family sessions I recommend outdoors sessions as their new or fairly new ability to move makes it hard for them to stay in the studio. Any location of your choice. At home, nearby park, fields of flowers, on the beach.

A travel fee of 50 may apply to any sessions located out of Dublin.

# Frequently asked questions

## ► What is the best time?

Generally, I prefer to shoot either early morning or after baby's nap time.

Outdoor session is possible to reschedule your sessions that are affected by weather.

## ► What clothes should I bring?

For babies sessions in the studio we have an endless supply of cute outfit, headbands, tieback, knits and props so you don't have to worry about it and we can discuss and decide together the best outfit before the session...

For parents try to use solid colours and texture. It looks always classic. In group photos, colour coordinating is always more pleasing to the eye. Wear clothes that represent who you are. You are welcome to change clothes.

## ► When will I receive my images?

You will receive your private online gallery 2 days after the session. The gallery will be available for 10 days. Time enough for you and your family select your favorite images. Once you select the images and finalize the gallery it takes around 4 weeks to receive the digitals and 7 weeks to receive any printed products (Album, box, frame, prints, and final package with USB)

## ► Can I get the RAW files?

I don't release any images not included with set of final images, because they were neither created nor intended as final products.
