Frequently asked questions

► Where the session take place?

All my Newborn sessions take place in my studio in Walkinstown - Dublin 12, where I have everything equipped and prepared for your baby comfort and safety. In the studio, I have a variety of accessories, props, fabrics and clothes for your baby to choose from. You can also bring special items (such as a family heirloom) that you would like to include in your baby's photographs.

Frequently asked questions

► When should I make reservation?

Its never too early to book your session. I suggest you book your session during your second trimester to ensure availability. We will reserve a date in my calendar and I will wait your confirmation when the baby is born.

► What if my baby comes early or after my due date?

If you are booked, that is no problem at all. I will get you on my schedule within that 5 – 15 days window.

► When is the best time to photograph a newborn?

The best time to photograph a newborn is between 5-15 days after birth. At this time they are nice sleepy and are easy to pose. But if for some reason we can't get your baby's photos done in the time frame there is no problem at all I can photograph newborns up to 5 weeks of age.

► Are family included in the session?

Yes! I always recommend photographing with your newborn. Parents and sibling are always included in my sessions.

► Where the Maternity session take place ?

Maternity session always on location of your choice. Studio, home, nearby park...fields of flowers, beach. We keep maternity sessions to one location in order to maximize our time and to allow for a more comfortable experience for the mother-to-be. Please also be aware when choosing your location type that specific beaches require climbing up and downstairs, steep slopes, and sometimes rocks. Keep in mind the outdoor locations are always changing with the seasons/weather. A travel fee of €50 may apply to any session located out of Dublin.

► My baby has newborn acne. Do I need to reschedule?

No. Newborn acne is very common. I fully retouch every newborn session on photoshop, so there is no need to worry that you will see it in the images.

► When will I receive my images?

You will receive your private online gallery 5 days after the session. The gallery will be available for 10 days. Once you select the images and finalize the gallery it takes around 4 weeks to receive the digitals and 8 weeks to receive any printed products (Album, box, frame, prints, and final package with USB)

► Can I get the RAW files?

I don't release/sell any images not included with set of final images, because they were neither created nor intended as final products.

Advice

► CLOTHING

Simple is the best. Try to use solid colours and texture. It looks always classic. In group photos, colour coordinating is always more pleasing to the eye. Wear clothes that represent who you are. You are welcome to change clothes.

I also have a full maternity wardrobe with dresses and gowns available.

For babies sessions in the studio we have an endless supply of cute outfit, headbands, tieback, knits and props so you don't have to worry about it and we can discuss and decide together the best outfit before the session...

► TIME

Usually newborns I prefer to shoot either early morning.

Maternity outdoor session is possible to reschedule your sessions that are affected by weather.

► LOCATION

Studio address; Bridgecourt Office park, Unit 9A, Walkinstown - Dublin 12.

► WHEN WILL I RECEIVE MY PHOTOS?

You will receive your private online gallery 2 days after the session. The gallery will be available for 5 days. Time enough for you and your family select your favorite images. Once you select the images and finalize the gallery it takes around 4 weeks to receive the digitals and 7 weeks to receive any printed products (Album, box, frame, prints, and final package with USB)
